The Project is in the last 12 months and it needs to generate value:

- Jointly, as a consortium, it is necessary to meet work plan objectives, fulfil recommendations, achieve the joint objectives set as a project.
- Some partners could be looking for tangible results to exploit.

These results go beyond the individual actions and are related to project overall progress and coherence.

WPL and Task Leaders are expected to stimulate actions.

In conclusion:

Partners role is fundamental!
